The Fabulous February Dental Team: (Left to right) Dr. Marc Elie Vassor, Melinda Sainsurin, Dr. Ader Rousseau, Becky Baise, Dr. Eugene Hans and Jaycie Edwards

Dental Care... Because He Cares... We Care

Dental blessings did abound this February at Missions Of Love via the capable and compassionate hands of Doctors Ader Scott Rousseau, Eugene Hans and Marc Elie Vassor while assisted by Clinical Coordinator Becky Baise and student, Jaycie Edwards (both from Kentucky) and Melinda Sainsurin. The six-day Dental Clinic provided care to 142 patients, administering 386 patient services, including 53 cleanings, 101 fillings and 84 extractions.

STRONGER

Smiles
for

STUDENTS

Armed with tiny brushes and a thick, decay-fighting paste, Becky Baise, Justin Crews, Jaycie Edwards and Ralph Porter, took to purposely coating each and every tooth in the mouths of pre-schoolers to high school-aged children who marched single file into the x-ray room turned dental triage. It also allowed for charting additional dental care as needed.

For two days, the foursome, along with the added assistance of MOL Vice-President, Nancy Bukovnik and our interpreter, George Renaud, applied fluoride treatments to the teeth of 422 students from three nearby schools. Following the application students were given a toothbrush and toothpaste to continue the fight for healthy teeth and gums.

MOSQUITO NET DISTRIBUTION

Thanks to the generosity of Malaria Fini, MOL was able to purchase 756 mosquito nets for FREE distribution to aid in the prevention of malaria

Upper Left: Widson preparing to unload nets
Lower Left: Nets unpacked/prepared

Upper Rt: Nurse Edline giving instructions
Lower Rt.: Net distribution

The mosquito net distribution, conducted by MOL Director Blaud Mondesir, began at 2 p.m. Sunday, February 12th and lasted nearly three hours as hundreds came from Jolivert and 10 other surrounding villages and mountain communities.

As the crowds began to gather at the MOL gate, each were organized into groups with their community leaders, and were given anti-malaria education and instructions on how to properly use the nets by MOL Nurse, Edline Beaubrun. By the end of the distribution 550 colorful nets had been given to the selected families. Given the choice of a blue, rose, yellow or white net, the most favored color of all was rose. Why? Simply because the next day was Valentines Day! The remaining mosquito nets were installed over beds on the MOL Campus and distributed the following day to the absentee families.

*"Feed the hungry, and help those in trouble. Then your light will shine out from the darkness."
~Is. 58:10*

Because of the faithful giving to the Jolivert Feeding Program, commodities of Rice, Flour, Cornmeal, Macaroni, Spaghetti, Cooking Oil and Black Beans were purchased, packaged and ready to be distributed to over 125 needy families

Team: It's all about HIM

Becky Baise

Cave City, KY
Age: 50
Job: Compton Orthodontics Clinical Coord.
Church: Coral Hill Baptist Church

"It's amazing to look back and see how The Lord had this whole trip planned... His hand on every detail months before it took place. We saw Him touch so many people along the way, from the planning and even still with the memories and friendships He allows us to have with the Haitian people who touched our hearts. The worst part about this trip was the fact that we had to leave."

Justin Crews

Glasgow, KY
Age: 27
Job: Amneal Pharmaceuticals
Church: Coral Hill Baptist Church

"Very humbling to be around the (Haitian) people working with them and learning their language. It was a blessing to be able to play soccer and share the gospel, and witness a young man being saved. It just showed me that He can use anyone regardless of where you are or who you're sharing the gospel with... that is indescribable and a blessing."

Jaycie Edwards

Glasgow, KY
Age: 18
Job: Hibbett Sports, babysitter and student
Church: Coral Hill Baptist Church

"Haiti is truly a beautiful country with beautiful people and beautiful hearts. I've left a big piece of my heart there and I am beyond blessed that the Lord provided me with the opportunity to share Christ's love and experience his work happening right before my eyes. I pray I get to go back some day. Praise God!"

Warren Mattingly

Melbourne, FL
Age: 62
Job: Electrical Sign Contractor
Church: Christ Church of Hope

"It was such a blessing and honor to serve Christ in Haiti.. to witness the love and kindness of our Lord Jesus Christ through the hard work of the Haitian dentists, the MOL staff, cooks, interpreters and our team. They were all such an inspiration, I still long for that sweet fellowship."

Employee Appreciation Dinner

On Valentine's Day, MOL employees were treated to a love-themed appreciation night, which included a beautifully presented and delicious Haitian meal, light-hearted fellowship, a short devotion and encouragement to continue serving alongside Missions Of Love in the future as we continue to grow and serve our Lord and Savior Jesus Christ in and around the Jolivet area.

Garden Seed Distribution

Several boxes of garden seeds donated by NY Seed Programs International out of Asheville NC had been shipped to Dr. Bob and Betty Johnson recently, so Betty sent in several packages of garden seeds via February team member Warren Mattingly, enabling Blaud to package up and distribute several hundred packages containing okra, cabbage, tomato, beet, onion and eggplant seeds on Friday, Feb. 17th to nearby gardening families.

Dolls on Mission

Dolls on Mission is a ministry of Angela Seng's family's company, Seng Inc. They specialize in restoring Barbie dolls to like-new condition, then send them out with missionaries and mission teams around the world. February Mission team member, Becky Baise, packed in nearly 60 Seng ministry dolls to share with the young girls of the Jolivet area, bringing smiles to young dental patients, students and friends of the Mission. Angela Seng sings and speaks about the doll ministry to raise money

and awareness for this ministry as well as the Seng Family's other ministries. "The response to this ministry has been overwhelming from those who have donated and to the children receiving the dolls," Seng says. "Within the past two years we have restored over 1000 Barbie dolls. For more stories, videos, and info, visit their Web site at angelasengmusic.org
