Dental Debut First-time Bush Clinic

May 15, 2017 marks a special day on the **Missions Of Love** calendar. For on this date, when the big ol' Army truck was loaded with medical supplies, it included three dental chairs, three portable dental units, and the rest of

On that otherwise ordinary Haitian Monday, healthcare and dental care emerged to bring health, healing and brighter smiles to 180 villagers. Like a three-part harmony, the medical team gave medical attention to 87

At Your Service... At Tiboidorm Bush Clinic

the gear to make dental care a reality in a **bush clinic**. Side-by-side Haitian **medical and dental** professionals, and a handful of smiling Americans, joined together in the bumpy ride to the base of a mountain called Berard to set up shop in a school house in a tiny village called Tiboidrom.

patients, while one dental team dispensed dental care to 33 patients, and the other applied fluoride treatments to the teeth of 76 students.

The results were harmonious as patient after patient received much-needed care, a Bible and a toothbrush. At the end of the

*Proceeds go to Missions Of Love

Journey through the pages of time as **Missions Of Love** Founder, Robert T. Johnson, MD, a country doctor affectionately referred to as, Dr. Bob, recounts his life story from a troubled teen to serving in the Korean War, sailing the Caribbean seas to farming to being a father, a husband, and co-founder of **Missions Of Love** along with his wife, Nurse Betty.

*“The thing that has most moved my life is when we got together and started **Missions Of Love** – it has been such a touching experience for both of us.”*

~ Dr. Bob Johnson

day, the mayor of Tiboidrom spoke of the people's gratitude and added, "The people would like for you to come back again next month and bring dental care."

Although we could not grant such a wish at this time. The hope of our heart is to one day soon hire a Haitian dentist to make dental care available on

a daily basis, as is medical care, in our Jolivert facility.

The rest of the week the Haitian trio of dentists, Dr. Eugene Hans, Dr. Marc-Ely Vassor, and Dr. Chavennes Jean Pierre, along with Becky Baise, Dental Coordinator, Bonnie Cheely, Dental Assistant and MOL Dental Clinic Coordinators, Ralph

and Barbie Porter, (all from Kentucky) cheerfully provided additional dental care for an additional 115 patients. To God be the glory!

Opportunities to Serve Is God calling YOU?

This Fall is a great time to answer your call to the mission field in Haiti.

Here's how...

Work Week – October 1 -20

Ralph Porter needs help to build shelves, tables and cabinets for the Dental Clinic, and conquer a hefty maintenance "to-do" list. This is also an opportune time for **evangelistic work**. Do you like to teach, preach or sing?

Medical Week – Oct. 10-20

Dr. Mick Vanden Bosch will once again perform cataract surgery at the MOL Eye Clinic accompanied by medical and dental teams. We would love to include a pediatric dentist, an oral surgeon, and a hygienist to this team.

Hope to hear from YOU soon!

Jolivert Conferences

The April Evangelistic Team led in by MOL President Dale Breedlove was formed by Pastor Johnnie Blount and Bridging The Gap Ministries out of North Carolina. This team did a Pastor's Conference for 80 local pastors, a Women's Conference and a three-day VBS where attendance grew daily from 100 to 200 to over 400 youth! This team intends to continue to bring the Good News back to Haiti in November.

In May over 50 ladies gathered into the presence of the sweet

Holy Spirit and fellowship for a conference led by Barbie Porter, Becky Baise, Carmelle Velcine, Bonnie Cheely (Kentucky) and Interpreter, Merlinda Saimsurin. The message was Rest in Him.

Doctors on Rotation

MOL Clinic Director Christophe Velcine reports that the MSPP Doctor Internship Program implemented in February at Clinique Jolivert is proving successful. "The resident doctors continue their rotation between Gros Morne Hospital and Jolivert and it is working good. The patients are coming from different areas looking for medical care. Some come from a long way because they hear that 'Jolivert cares for their problems.' I say, we are only Jesus' servants and want to do His will."
